TAVAN TIP BAFFLE VECTORIAL  
VECTORIAL BAFFLE CEILINGS

Tavanele tip baffle vectorial pot fi produse din aluminiu sau oțel galvanizat, în diverse dimensiuni și formate. Profilele baffle vectorial se prind pe sistemul de susținere cu cleme, atașat la profilul principal L. Montare și demontare facile. Culori standard: RAL 9016, 9005 și 7016. Disponibile și în alte nuanțe RAL la cerere sau cu finisaj aspect lemn.

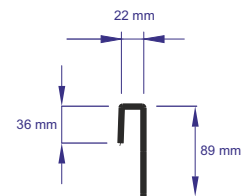

Vectorial baffle ceilings manufactured from aluminium or galvanised steel material in several sizes. Panels are being installed on carrier profiles which are mounted on main L carriers providing straight forward installation and uninstallation. Standard colors are RAL 9016, 9005 and 7016. Also can be painted to any RAL color or wood look.
